Page 10 - Pluto

Our Solar System

Our solar system is a big family of planets. It has eight planets and one dwarf planet. All the planets travel around the Sun. The Sun is a star that gives us light and heat.

www.talkinginpictures.co.uk

Mercury

Mercury is the closest planet to the Sun. It is very small and very hot. Mercury has no air to breathe. It travels around the Sun very fast.

Venus

Venus is the second planet from the Sun. It is the hottest planet. Thick clouds cover Venus. The clouds trap heat, making it very warm.

Earth

Earth is our home. It is the third planet from the Sun. Earth has water, air, and land. People, animals, and plants live here. Earth is just the right temperature for life.

www.talkinginpictures.co.uk

Mars

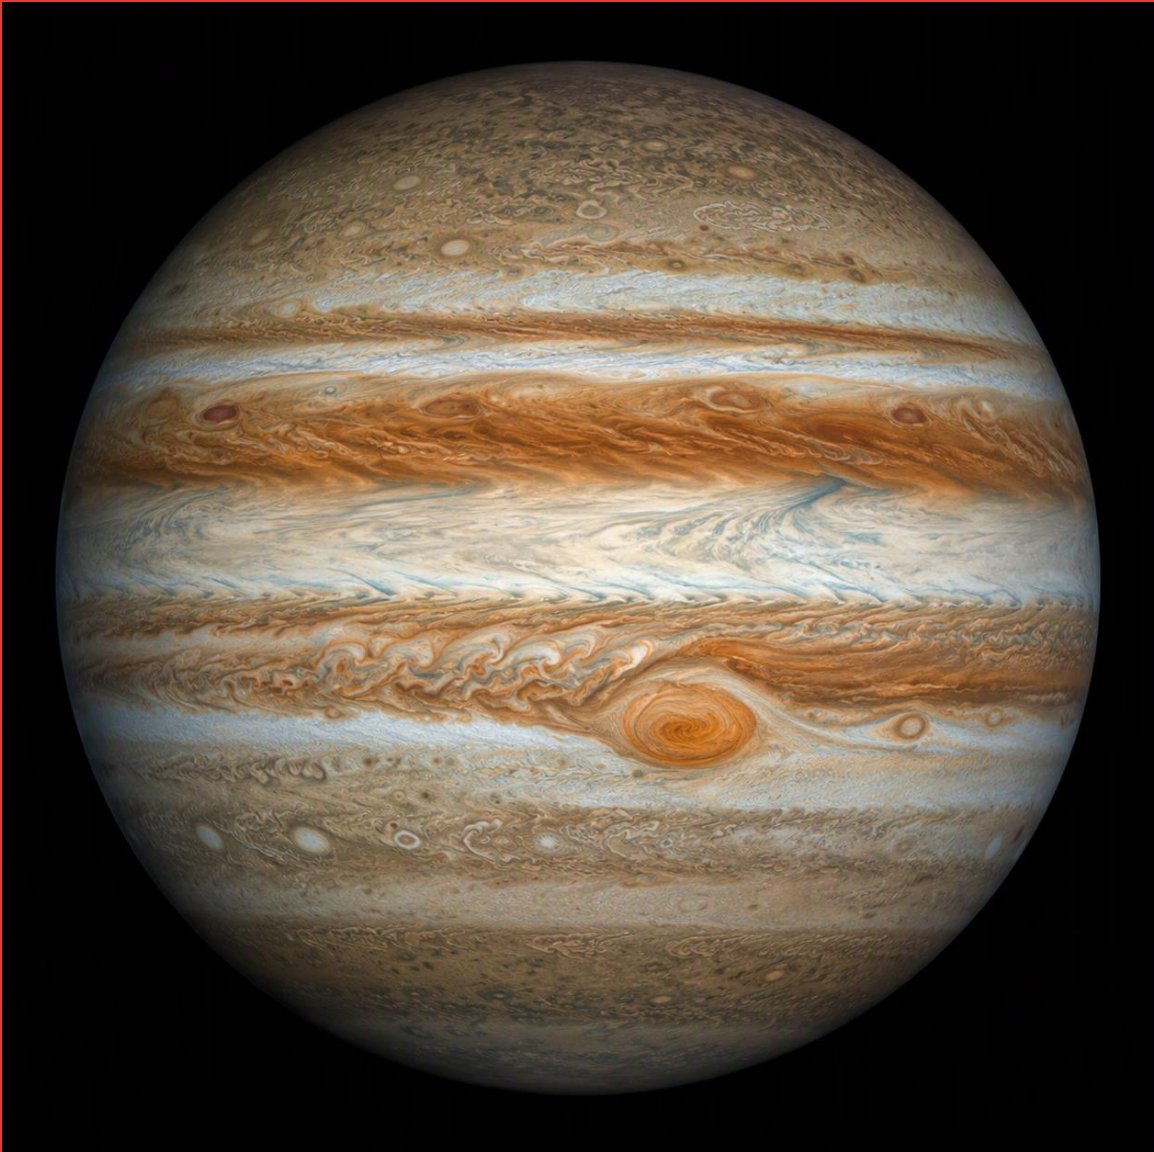

Mars is the fourth planet from the Sun. It is called the Red Planet because it looks red. Mars has dust storms and big mountains. Scientists think there might have been water there long ago.

www.talkinginpictures.co.uk

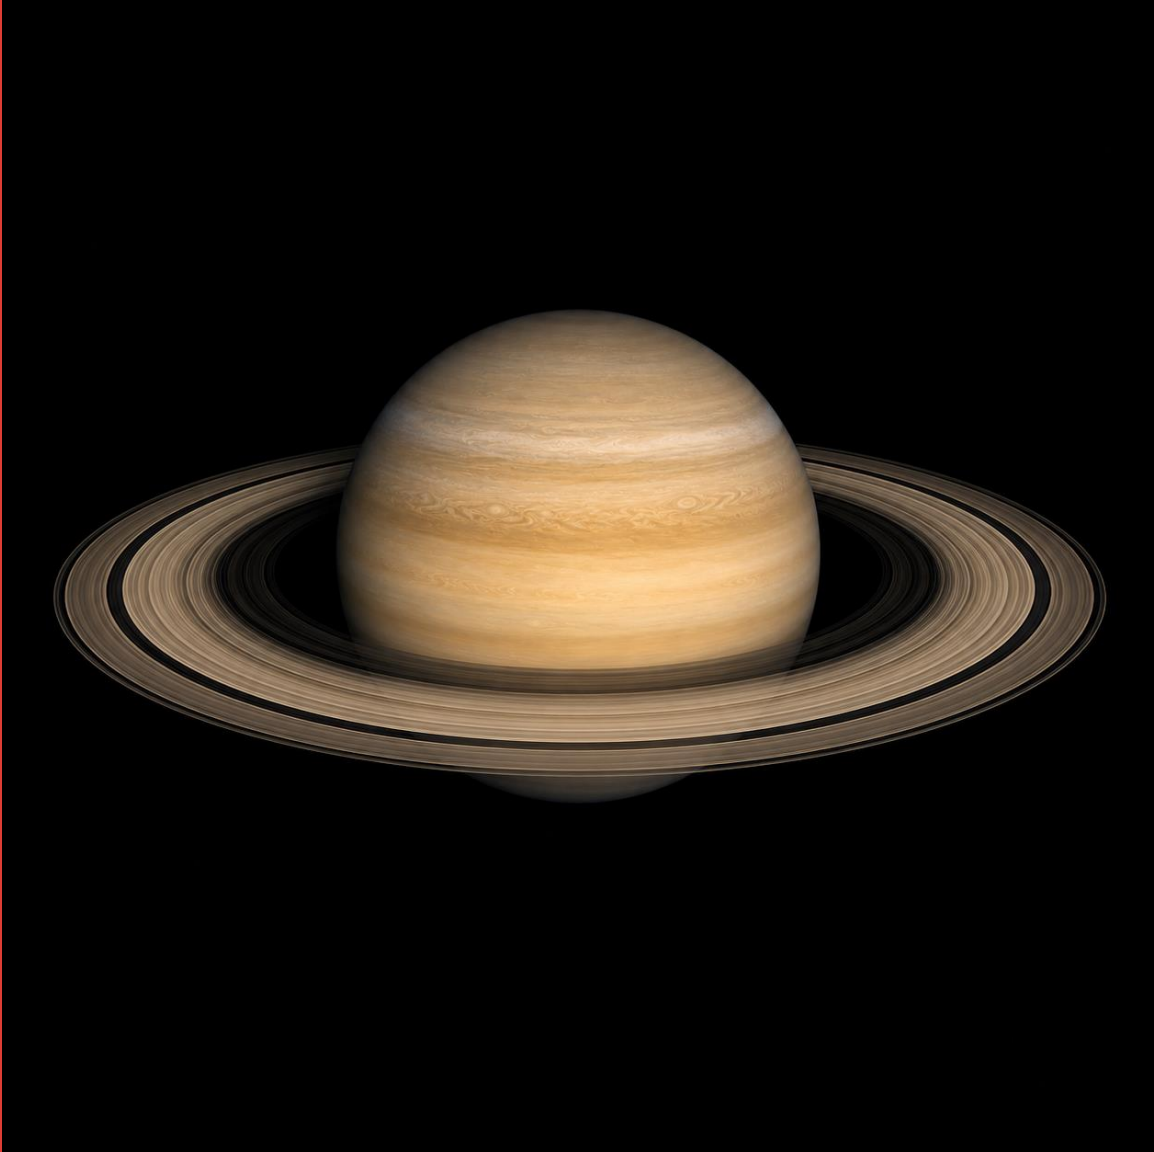

Jupiter

Jupiter is the biggest planet. It is the fifth planet from the Sun. Jupiter is a gas giant, so it has no solid ground. A big red storm called the Great Red Spot spins on Jupiter.

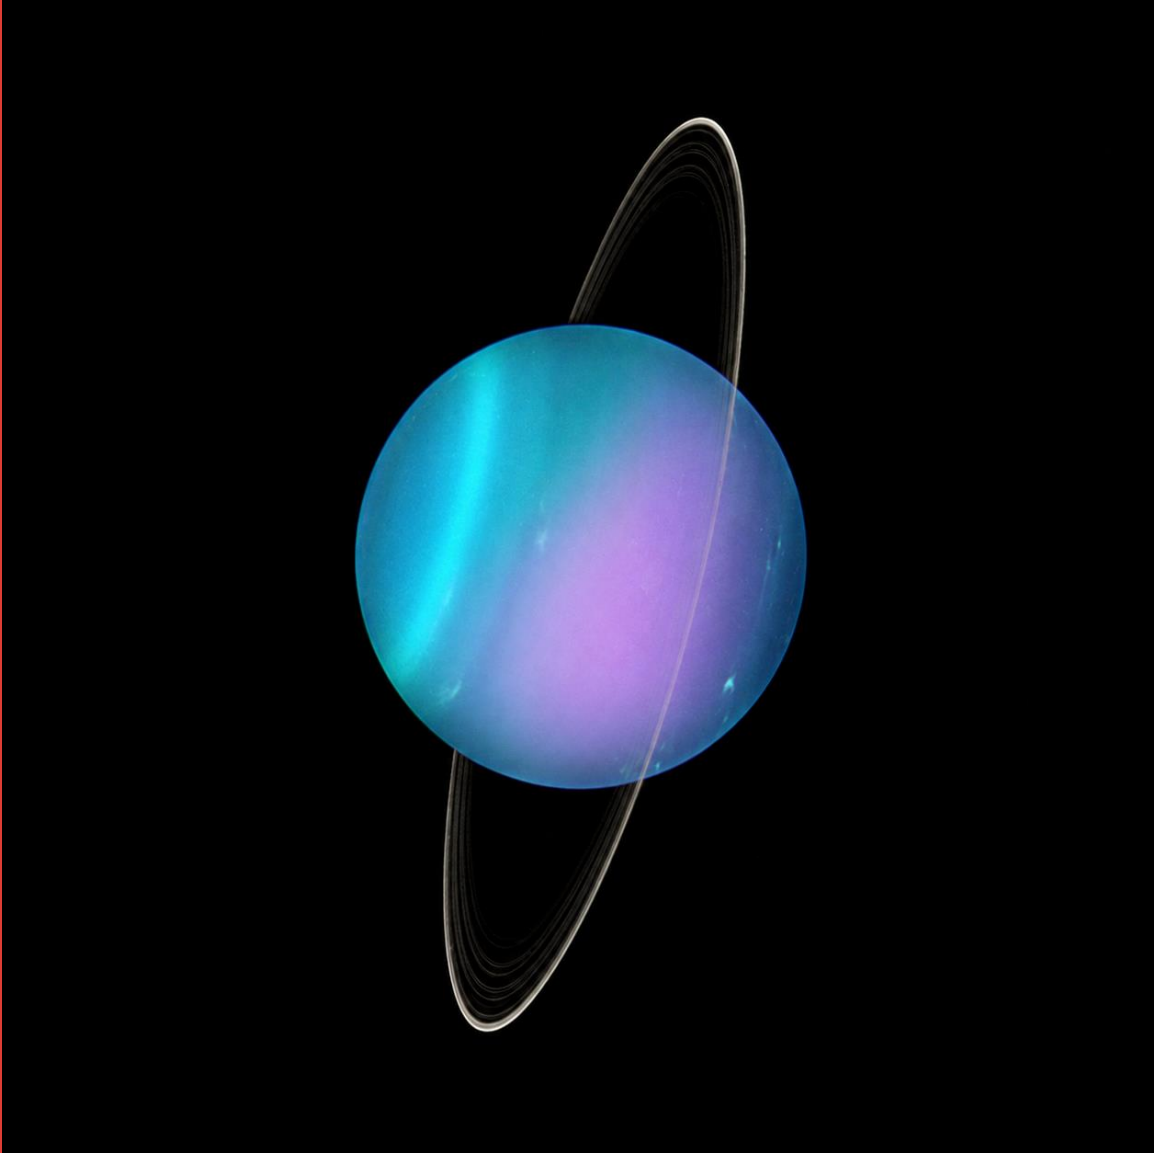

Saturn

Saturn is the sixth planet from the Sun. It is famous for its beautiful rings. The rings are made of ice and rock. Saturn is another gas giant.

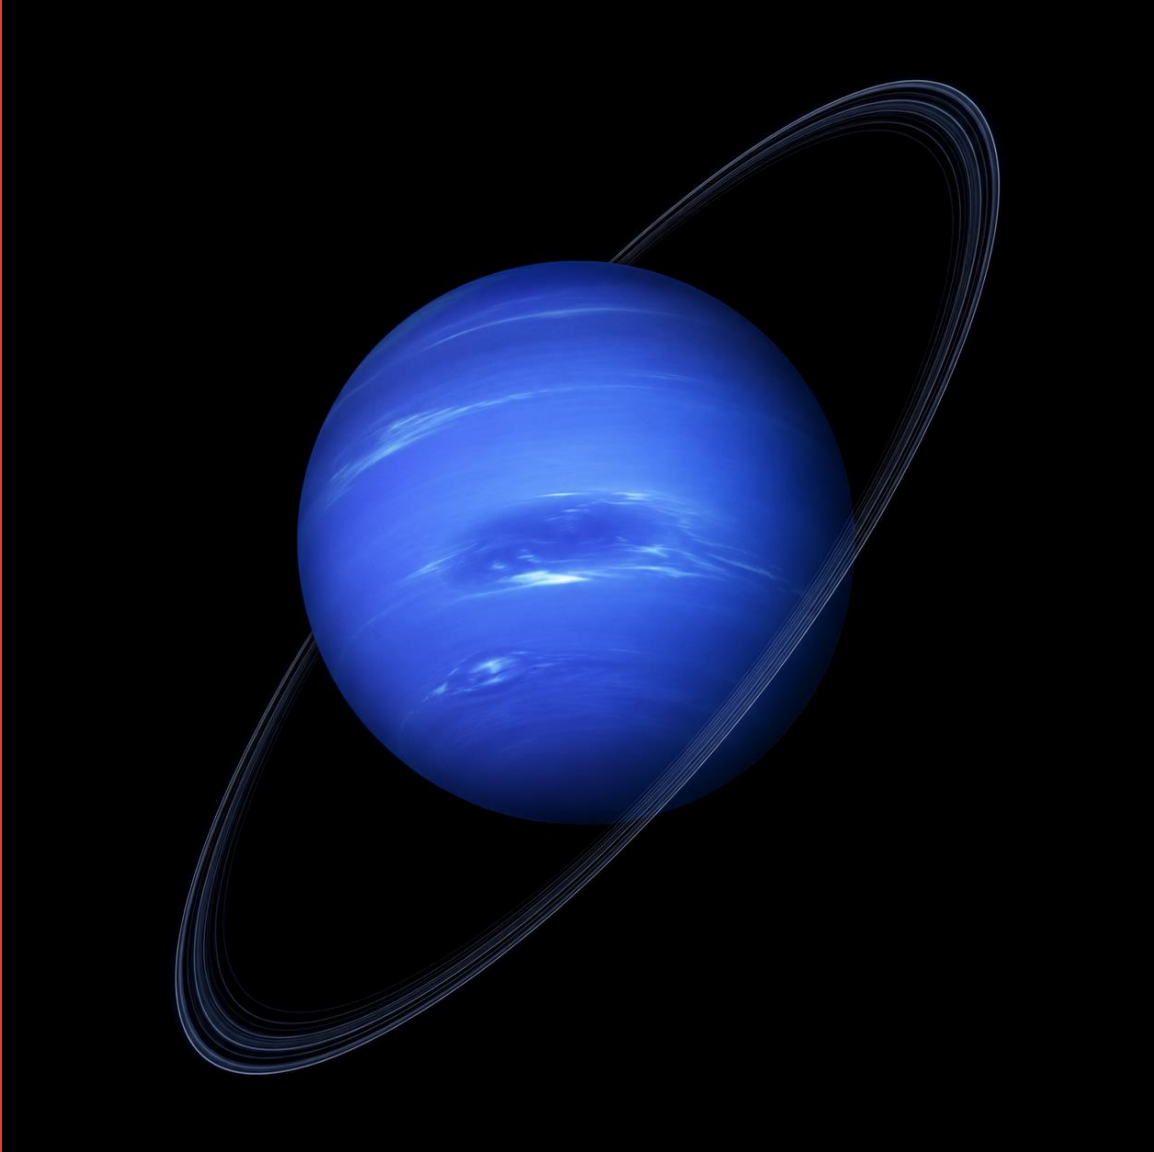

Uranus

Uranus is the seventh planet from the Sun. It is very cold and far away. Uranus spins on its side, which makes it special. It is also a gas giant.

Neptune

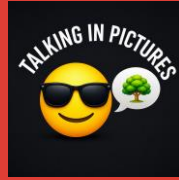

Neptune is the eighth planet from the Sun. It is the farthest planet. Neptune has strong winds and big storms. It is a deep blue colour.

Pluto

Pluto used to be called a planet. Now scientists call it a dwarf planet. It is small and far away. Pluto is very cold and takes a long time to travel around the Sun.

About This Booklet

Our solar system has eight planets and one dwarf planet. They all travel around the Sun. Each planet is different. Some are hot, some are cold, some are big, and some are small. Earth is the only planet we know that has life.

This is a *Green Level Reader* from Talking In Pictures. I'm Oli, a Special Needs Teacher and I wrote these Readers to offer emerging readers and those with SEND a chance to read age appropriate, relevant, interesting and inspiring content.

Please see *Blue, Green and Jade Versions* for simplified and symbolised versions.

For more books and resources for SEND and other Emerging Readers please visit www.talkinginpictures.co.uk
