

Talking in Pictures — Website

A lightweight, multi-page site for visual language-learning resources.

What's Inside

```
talking-in-pictures/  
├─ index.html          # Landing page (~14 KB)  
├─ reader.html         # Interactive graded reader (~8 KB)  
├─ css/  
│   └─ style.css       # Shared stylesheet (~14 KB, cached)  
├─ images/  
│   ├── logo.png  
│   ├── zone-secondary.png  
│   ├── zone-primary.png  
│   ├── package-cover-1.jpg  
│   ├── package-cover-2.jpg  
│   └─ package-cover-3.jpg  
└─ docs/  
    └─ (your PDFs go here)
```

How to Deploy on Vercel

1. Push to GitHub

Create a new repository and upload these files:

```
git init  
git add .  
git commit -m "Initial commit"  
git branch -M main  
git remote add origin https://github.com/YOURNAME/talking-in-pictures.git  
git push -u origin main
```

2. Connect to Vercel

1. Go to vercel.com and sign in with GitHub
2. Click “Add New Project”
3. Select your talking-in-pictures repo
4. Click **Deploy** (no build settings needed — it’s all static files)
5. Done! Vercel gives you a URL like `https://talking-in-pictures.vercel.app`

3. Add Your PDFs

Drop your PDF files into the docs/ folder, then commit and push:

```
git add docs/  
git commit -m "Add PDF resources"  
git push
```

Vercel will redeploy automatically.

4. Add Your Images

Replace the extracted placeholder images in `images/` with your original high-quality files. Keep the same filenames, or update the `src="images/..."` paths in the HTML.

```
git add images/  
git commit -m "Update images"  
git push
```

How to Add a New Package

1. **Add a PDF** to `docs/your-pack-name.pdf`
2. **Add a cover image** to `images/your-cover.jpg` (optional)
3. **Copy a package card** from `index.html` and edit:
 - Title, blurb, emoji/icon
 - Level pills (Jade/Green/Blue/Red)
 - PDF link: `href="docs/your-pack-name.pdf"`
 - Reader link: `href="reader.html"` (or a custom reader page)

File Size Comparison

	Before (single file)	After (multi-page)
Landing page	609 KB	~14 KB
CSS	Inline (uncached)	~14 KB (cached)
Images	Base64 inline	External cached files
First visit	~609 KB	~100 KB + images
Return visit	~609 KB	~14 KB (CSS cached)

Customising

- **Colours:** Edit the `:root` CSS variables in `css/style.css`
- **Fonts:** Currently uses Google Fonts (Baloo 2 + Atkinson Hyperlegible). Change the `<link>` in each HTML file.
- **Reader stories:** Edit the `stories` object in `reader.html` to add or change levels and pages.

Need Help?

- Vercel docs: vercel.com/docs
- GitHub Pages is also an option — just enable Pages in your repo settings
